## Access control with turnstiles

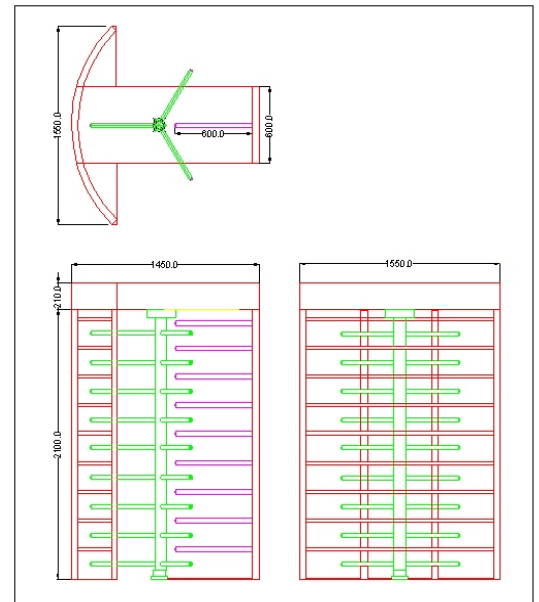

Turnstiles offer an excellent means of regulating passage of people allowing valid users an easy entry while discretely restricting the unauthorised entry.

Turnstiles can be configured for ENTRY, EXIT or BOTH.

The important concept of “One Time One Pass” can be achieved by using Turnstiles.

### SPECIFICATIONS:

Body	: SS or MS powder coated
Comments	: Rotor with 3 arms
Lane	: Single
Gate open time	: 2 to 10 Secs. User programmable
Direction	: Uni / Bi-directional User Programmable.
Mechanism	: Strong & rugged, Self Centering Mechanism with specially Designed Hydraulic damper
